

# How to Enable Cookies in your Internet Browser

---

First find out which browser and version you are using by clicking on **Help** and select **About** from within your internet browser.

## Windows Browsers

### Internet Explorer 7

1. In the Menu bar, select:  
**Tools > Internet Options > Privacy tab**  
The **Privacy Settings** box appears.
2. Drag the slider down to **Accept All Cookies**.
3. Click **OK** to close **Internet options**.
4. Close all web browsers and open a new browser.

### Internet Explorer 6

1. In the Menu bar, select:  
**Tools > Internet Options > Privacy tab > Advanced**.  
The **Advanced Privacy Settings** box appears
2. In the **Cookies** section, choose **Override automatic cookie handling**.
3. Under **First-party Cookies**, select **Accept**.
4. Under **Third-party Cookies**, select **Block**.
5. Select **Always allow session cookies**.
6. Click **OK** to close the **Advanced Privacy Settings** box.
7. Click **OK** to close **Internet options**.
8. Close all web browsers and open a new browser.

### Internet Explorer 5

1. In the Menu bar, select:  
**Tools > Internet Options > Security tab > Custom Level tab**.
2. In **Allow Cookies that are stored on your computer**, click **Enable**.
3. In **Allow per-session cookies (not stored)**, click **Enable**.
4. Click **OK** and save the settings.
5. Close all web browsers and open a new browser.

### Internet Explorer 4 or older

Please upgrade your browser for security reasons!

### Netscape 8

1. In the menu bar, select:  
**Tools > Options > Privacy Icon** in the panel.
2. Open the **Cookies** section.
3. Select **Keep Cookies: Until they expire**.
4. Click **OK**.
5. Close all web browsers and open a new browser.

### Netscape 7

1. In the menu bar, select **Edit > Preferences**.
2. In the **Privacy and Security** section, expand the list to show the choices.
3. Click **Cookies**.
4. Choose either; **Enable cookies for the originating web site only** (most secure) or **Enable all cookies** (most convenient).
5. You can choose **Warn me before accepting a cookie** to let you decide whether to accept a cookie.
6. Save the settings.
7. Close all web browsers and open a new browser.

## Netscape 6

1. In the menu bar, select **Edit > Preferences**.
2. In the **Privacy and Security** section, expand the list to show the choices.
3. Click **Cookies**.
4. Choose either; **Enable cookies for the originating web site only** (most secure) or **Enable all cookies** (most convenient).
5. You can choose **Warn me before accepting a cookie** to let you decide whether to accept a cookie.
6. Save the settings.
7. Close all web browsers and open a new browser.

## Netscape 4 or older

Please upgrade your browser for security reasons!
