

ACCESSORIES

© Ford Motor Co.

Laborsaving, timesaving,
moneysaving equipment,
designed to make your Ford
tractor with Ferguson
system even more useful
and profitable on your farm.

JACK AND HANDLE ASSEMBLY

9N-17078 • A sturdy positive-action jack — made to fit both front and rear axles. Especially useful for extending front and rear wheels for row-crop work. Gives exceptionally high clearance. **PRICE \$3⁷⁵**

TIRE PUMP, HOSE AND GAUGE

OPERATED FROM SPARK PLUG SOCKET

9N-17052 • Compact pump unit operates from any spark-plug socket. May also be used as tire gauge by connecting to tire valve. An ideal accessory for the farm (you can also use it on your car or truck). Can be used to inflate or check tires at any time. Furnished with full directions for use. Pumps only clean, cool air—no gasoline, exhaust fumes or oil. **PRICE \$4²⁵**

STORM COVER

9N-17049 • Heavy, durable tarpaulin made specially to fit tractor snugly. Recommended for long, trouble-free tractor service. Keeps out dust, dirt, and water. Easy to put on. A good investment in protection against the elements. **PRICE \$8⁹⁰**

WINTER FAN

78-8600 • Pull-type fan sends warm air back toward operator for more comfort in cold weather operation. Fan is 4-blade type, easy to install. **PRICE \$1¹⁰**

LIGHTING KIT

One headlight may be removed and mounted on rear fender as shown.

9N-18438 • Two special headlamps to be mounted as shown on either side of the radiator grille. One red taillight and license bracket. With lights, you can use your Ford tractor with Ferguson system 24 hours a day—either in the fields or for belt work. Helps beat the weather. Also needed for highway transport, crossing highways, going from field to field after dark. **PRICE \$14⁵⁰**

COMPLETE BELT PULLEY ASSEMBLY

9N-760 • Unit consists of pulley and gear box. May be attached in 3 different positions on tractor. Run your belt in either direction to fit various types of stationary equipment. Pulley clutch standard equipment on the tractor.

PRICE \$29⁰⁰

8x32 DUAL-WHEEL SET

9N-1170-A • Complete with two rims, disks, 8 x 32 tires and tubes. Needed for certain soils where wheel slip reduces traction. Helpful in hauling heavy, pull-type machinery from the drawbar.
Sold only in pairs.
Price on Request

10 x 28 OVERSIZE TIRE AND WHEEL SET

9N-1170-B • Now and then you encounter soil conditions that require greater flotation. These oversize rear tires will give it to you. Also recommended for use when pulling extra-heavy equipment. Complete with two rims, disks, 10 x 28 tires and tubes.
Sold only in pairs.
Price on Request

REAR STEEL WHEELS AND LUGS SET

9N-1170-D • Wide 10" wheels, equipped with 20 lugs per wheel arranged in staggered order. For use only where greater traction is required such as in wet soil condition.

Price on Request
