

NAPA Part Numbers for Maintaining Your Ford N Tractor

Compiled by Chris (SouNdguy) Britton

For Front Mount Distributor...

Points:

NAPA #CS35

Standard Ignition Blue Streak #FD-6769X (Premium)

Condenser:

NAPA #FA200

Standard Ignition #FD-71

Rotor:

NAPA #FA300

Standard Ignition #FD-104

Distributor Cap:

NAPA #FA350

Standard Ignition #FD-126

Spark Plugs:

Autolite 437 or Champion H12 plugs for the hotter range

OEM range is Champion H10 or Autolite 216

Spark Plug Wires:

Use copper core wires, not the newer carbon plug wires. Tractor Supply Company sells a "cut to fit" set for about 20\$

Note for tune-up parts: TISCO master ignition tune up kits from Tractor Supply Company or other tractor parts dealers (including New Holland) will have the spark plugs, distributor cap, condenser, rotor and points - all for pretty cheap. However, they contain breaker points with the plastic rubbing block, which tend to wear fast..

GL-1 90w Mineral Oil

NAPA Part# 65-205

N Oil Filter

NAPA# FIL-1010

Wix #51010

NAA Oil Filter

NAPA# FIL-1004
