

Posting a Photo on the N Tractor Club Forums from Photobucket.com - by Tyler Neff

1. Establish an account with Photobucket.com.
2. Upload your photos to your Photobucket account per the instructions at their web site.
3. Find the image you want to display on one of the N Tractor Club forums. Depending on the Photobucket account you have, use one of the examples below to copy the "Direct Link" code of the image. This will automatically copy the link to your computer's clipboard.

4. Now paste that code into the "Optional Image URL" box on the "Post a Message" or "Post a Follow Up" page of the N Tractor Club forum.

Post A Message

Name : My Name
E-Mail : My E-Mail
Subject : My Subject

Message :
My message.

Optional Link URL :
Link Title :
Optional Image URL : <http://img.photobucket.com/albums/v253/username>

5. When you click the "Preview Message" button, your image should display on the preview page. If not, go back and try again. There may be a part of the code that's missing when you tried to copy and paste it from your Photobucket account. Be sure to copy the **complete** URL code. Here's an example of the complete code:

`http://img.photobucket.com/albums/v253/username/4spokewheel.jpg`

Note: The "Optional Image URL code must begin with "http" and end in "jpg"
