by Tyler Neff (11-14-15)

- 1. Establish an account with <u>Photobucket.com</u>.
- 2. Upload your photos to your Photobucket account per the instructions at their web site.
- 3. Make sure all of the necessary links for your images are displayed. To do this, follow these instructions:

a) If you are logged out of your Photobucket account, make sure you "Log in".

🕅 photobucket	Browse	Editor	Upload	Print Shop	Q Search	- Log	g in
					f Log in O	R Email or Username	Ĭ
					🔰 🛛 Log in	Password	
					Need an account? Sign up!	✓ Remember me Log in Forgot?	

b) Click the "Library" tab.

Library Browse Editor	Upload	Print Shop	Q Search	· ()

c) Click "Settings" from your profile pull down.

\Box	Library	Browse	Editor	Upload	Print Shop	Q Search		\bigcirc
							Profile	
							Settings	
							Log out	

d) Click the "Albums" tab.

\Box	Library	Browse	Editor	Upload	Print Shop	Q s	earch		•	
	Pe	rsonal	Inform	nation						
		Personal	Albur	ns Privacy	Apps	Notifications	Mobile	Account		
			40							

e) Check mark the "Links" required to use on this forum. I turn them all on as shown in the figure below:

Albums									
Personal	Albums	Privacy	Apps	Notifications	Mobile	Account			
Thumbnail Set	Thumbnail Settings								
Newest first	-	Ø							
Sort all exist	ting albums the	same way							
Image Rotatio	n								
Automatica	lly rotate image	s on upload							
Links Show these sha C Email & IM	re options for all	of my albums.							
Direct Link									
HTML code									
HTML thum	ıb								
IMG code									
IMG thumb									
Easy Linking M	Easy Linking Mode								
Turn on eas	Turn on easy linking mode 👔								
Link Back Option									
Link back to albums 👔									
Save	Cancel								

Once your links are selected remember to click "Save" on the albums page to save your album settings.

4. Now find the image in your library you want to display on one of the N Tractor Club forums. Click on it to open the image on its own page. Click on the "Direct Link" code of the image. This will automatically copy the link to your computer's clipboard.

5. Now paste that code into the "Optional Image URL" box on the "Post a Message" or "Post a Follow Up" page of the N Tractor Club forum.

		Post A Message	
<u>Name</u> <u>E-Mail</u> Subject	: :	My Name My E-Mail My Subject	
Message My mess Optiona Link Ti Optiona	ag	Link URL : .e : Image URL: http://img.photobucket.com/albums/v253/usen	/// na

6. When you click the "Preview Message" button, your image should display on the preview page. If not, go back and try again. There may be a part of the code that's missing when you tried to copy and paste it from your Photobucket account. Be sure to copy the **complete** URL code. Here's an example of the complete code:

http://img.photobucket.com/albums/v253/username/4spokewheel.jpg

Note: The "Optional Image URL code must begin with "http" and end in "jpg"

7. For more information, click the link below:

http://support.photobucket.com/entries/21113677-Link-Codes-Embedding-or-Linking-Photos-and-Videos

Hope that helps.

Tyler (MD)
